Hello,

As discussed, please find attached the arbovirus memo for your review. We attempted to capture yesterday's discussion as comment bubbles and added additional thoughts based on those conversations. If possible, we would request your edits by COB June 23<sup>rd</sup>.

Please feel free to make your edits directly in the document, but we would request you do so using the track changes option. Based on your input we will revise the text and send the memo around a second time for final signature.

With best regards,

Wiebke
